

Artefacts

Keeping them Safe

**Rural
Life
Centre**

We have thousands of old objects in the museum, collected over many years. They have been collected to make sure that people, like you, can see them and learn what they had been used for.

Most people are honest and really appreciate all the care and work that has gone into displaying the artefacts. Unfortunately, some people come here to steal things.

How would you advise us to set about making the museum displays safe from thieves and vandals?
